TECHNICAL SKILLS

HTML5, CSS3, Javascript, ReactJS, TypeScript, NextJS, Gatsby, GraphQL, Redux-Toolkit, Zustand, SASS, LESS, Tailwind, MaterialUI, ChakraUI, Ant Design, GSAP, Framer

PROFESSIONAL EXPERIENCE

Seaplane Group, *React/Frontend Developer Intern* 🔗   11/2022 – 12/2022 │ Taguig City
- Revamped the whole Airtaxi page of the company's web booking website as seen in https://www.seaplanegroup.com/air-taxi 🔗 based on the Figma wireframe and added 4 subpages for each helicopter models using Next.js, Typescript, Zustand and Chakra UI.
- Introduced the use of slugs to the team for an easy-to-read URL and to improve SEO ranking.
- Developed the company's web operator portal - a CRM dashboard for the administrator and operators of different mode of transportations being offered and improved its functionality to 80% from its previous status by adding 5 new pages such as Private Jet, Air Taxi, Yacht, Super Cars and Calendar from its original 6 pages and applying CRUD functionality to them using different Backend API endpoints including the Ridesharing and Experiences pages.
- Employed Role-Based Access Control (RBAC) to the website to restrict the operators from accessing pages and informations strictly for the administrators' consumption only.

PBS, Inc., *Broadcast Technician*   05/2013 – present │ Pasig City
- Handling IT assets & inventory management, computer software and hardware-related problems.
- Ensuring the transmitter and other broadcast equipments are on its top-notch working condition, troubleshoot and updating the immediate officers for progress during down time of equipments, as much as possible, take overtime until equipment is repaired.

PROJECTS

NeuBlock 🔗
Full-stack MERN charting and NFT-Crypto Tracker app made using Redux Toolkit and Ant Design. It consumes Webit and Opensea for the NFT, Coinranking for crypto and Bing for news, all of which came from RapidAPI.
- Redux Toolkit, Ant Design, RESTapi
- **API** - Coinranking, Webit, Solana NFT, Bing │ **STACK** - MongoDB, Express JS, Node JS, React, Vite
LINK: https://neublock.vercel.app/ 🔗

Finch Tea 🔗
Full-stack e-commerce website utilizing Paypal as one of the mode of payments.
- Next JS, Redux Toolkit
LINK: https://finch-tea.vercel.app 🔗

FinchPro 🔗
FinchPro is a CRM admin dashboard react app that utilizes some of the great components by Syncfusion.
- React, Tailwind CSS, ContextAPI
